

MUHAMMAD UMER ASLAM

FRONT-END DEV

karachi,PK - umeraslamxd1@gmail.com - +923342614635
<https://www.linkedin.com/in/muhammad-umer-aslam>

SUMMARY

Highly motivated Front-End Web Developer with strong skills in HTML5, CSS3, and JavaScript. Experienced in building responsive and user-friendly websites, with growing expertise in React, Tailwind CSS, and Redux. Familiar with Git and modern development practices. Experienced in creating Shopify stores using no-code tools, including product listing, theme customization, and store setup. Also working as a Virtual Assistant on Amazon, developing strong communication and task management skills. Dedicated to writing clean code and continuously improving technical abilities.

PROJECTS

Front-End Web Developer (Self-Project)

- Built a responsive personal portfolio website using HTML5, CSS3, and Bootstrap. Implemented interactive features with JavaScript, such as form validation and DOM manipulation. Published and version-controlled the project using GitHub.

Front-End Developer (Online Course Projects)

Completed via [Online resources]

- Completed hands-on projects like landing pages, to-do apps, and responsive layouts. Practiced debugging with browser dev tools and collaborated on GitHub repositories.

Shopify Store Developer (Freelance)

- Created and customized a Shopify-based beauty and cosmetics website for a UAE-based client using no-code tools.
 - Handled product listings, theme customization, and overall store setup.
 - Ensured a responsive, user-friendly, and visually appealing design aligned with client requirements.
-
